SECTION A: WEBSITE PLANNING & DOCUMENTATION

1. WEBSITE SPECIFICATIONS

A. Website Objective and Business Goals

House of 95s is an independent online sneaker retail platform specializing in the sale and resale of Nike Air Max 95 sneakers. The primary objective of the website is to create an engaging digital storefront where users can browse sneaker collections, explore the cultural significance of the Air Max 95 silhouette, and make informed purchasing decisions through a visually immersive online experience.

The website integrates e-commerce, promotional branding, and editorial storytelling to reflect modern sneaker culture and contemporary streetwear aesthetics. Through carefully curated imagery, product displays, and informative content, House of 95s seeks to become a niche online destination dedicated to the Air Max 95.

The website will support the following business goals:

- Establish House of 95s as a niche sneaker retailer focused exclusively on Nike Air Max 95 products.
- Create an attractive digital platform for showcasing sneaker inventory and featured collections.
- Attract sneaker enthusiasts, Air Max 95 collectors, fashion-conscious consumers, and streetwear audiences.
- Increase online visibility, customer engagement, and product awareness.
- Generate sales and resale opportunities through an organized and visually appealing product browsing experience.
- Educate customers through product descriptions, editorial content, pricing information, and sizing guidance.
- Develop trust and credibility through a professional online brand identity.
- Encourage customer interaction through order enquiry forms, contact pages, and feedback opportunities.
- Increase customer loyalty and repeat website visits through sneaker culture content, editorial storytelling, and featured releases.
- Provide a communication and marketing platform between the House of 95s brand and its customers.

The website uses visual storytelling inspired by sneaker editorial culture and streetwear branding. Its dark-themed interface, with olive and neon green accents from the original

Nike Air Max 95 “Neon” colourway, features large promotional images, editorial layouts, and product-focused content to create an immersive and recognizable experience.

B. Target Audience: Demographics and Technical Aptitude

The target audience for House of 95s consists of individuals engaged with sneaker culture, streetwear fashion, online sneaker retail spaces, and digital fashion communities.

Primary Audience

The primary audience includes:

1. Sneaker enthusiasts.
2. Air Max 95 collectors.
3. Teenagers and young adults interested in streetwear culture.
4. Customers searching for original, exclusive, or rare Air Max 95 pairs.

Secondary Audience

The secondary audience includes:

1. Fashion-conscious casual buyers.
2. Trend-driven resellers.
3. Lifestyle consumers interested in sneakers as fashion statements.
4. Parents or guardians purchasing sneakers for younger users.

Demographic Profile

Age: 13 to 35 years.

Gender: All genders.

Location: Primarily Botswana.

Income Level: Lower-middle to upper-middle income depending on whether the customer is a casual buyer, reseller, or collector.

Lifestyle: Influenced by sneaker culture, digital shopping culture, fashion trends, social media, and modern streetwear aesthetics.

Technical Aptitude

The target audience is expected to have moderate to high digital literacy and be familiar with modern e-commerce platforms. Users are likely to:

- Browse online retail websites using smartphones, tablets, and laptops.
- Interact with navigation menus, product listings, and image galleries.
- Compare product prices, sizes, and sneaker variations online.
- Complete enquiry forms, feedback forms, and contact forms.
- Engage with sneaker and fashion content through digital media platforms.

The website must offer a mobile-friendly, responsive, and intuitive browsing experience, ensuring easy navigation and product exploration. Displays, menus, and content should remain clear and accessible on all devices.

C. Website Type and Content Strategy

House of 95s is classified as a hybrid e-commerce, promotional, and informational retail website.

E-commerce

The website serves as an e-commerce platform, enabling users to view, browse, and resell sneaker products. Users can explore listings, featured products, and related information.

Promotional

The website is also promotional because it actively markets the House of 95s brand through visual presentation, featured sneaker collections, promotional banners, and editorial content designed to strengthen customer engagement and brand identity.

Informational

The website is informational because it provides users with educational content related to sneaker history, cultural influence, sizing guidance, store information, and editorial features related to the Air Max 95.

Core Content Strategy

The core content of the website includes:

- Homepage promotional banners and hero sections.
- Featured sneaker collections and product listings.
- Editorial content related to Air Max 95 history and sneaker culture.
- Brand identity and About Us information.
- Product pricing and sneaker availability information.
- Sizing guides and customer support information.
- Contact, order enquiry, and feedback forms.
- Magazine-inspired sneaker articles and featured stories.
- New arrivals and featured pair sections.
- Newsletter and customer engagement sections.

This mix of commercial, promotional, and informational content ensures the website meets business objectives and user expectations.

1. INFORMATION DESIGN & TAXONOMY

2.1 Information Design

House of 95s features an information architecture focused on clarity, structured navigation, visual engagement, and efficient content discovery. Content is organized to help users browse products, learn about the Air Max 95, access support, and make enquiries or purchases.

The homepage serves as the main entry point, introducing users to the House of 95s brand through promotional imagery, featured sneaker sections, editorial content, and navigation links to important website pages.

The website follows the “3-click rule,” allowing users to reach all major sections of the website within three clicks from the homepage. This structure supports efficient browsing and enhances user experience.

The website’s information structure is divided into clearly defined categories based on user needs:

- Discovering the House of 95s brand.
- Browsing sneaker products and featured collections.
- Learning about the history and cultural significance of the Air Max 95.
- Accessing practical sizing and purchasing information.
- Contacting the business through enquiry and feedback forms.

The website uses visual storytelling approach inspired by sneaker editorial culture and modern streetwear branding. Its dark-themed palette, with olive and neon green accents from the original Air Max 95 “Neon” colourway, features large product images, editorial layouts, and promotional sections for an immersive, modern browsing experience.

2.2 Taxonomy

The taxonomy of House of 95s refers to the organization and classification of website content into major categories and subcategories to improve user navigation and content accessibility.

Main Categories

- Home – Brand introduction and featured sneaker highlights.
- About Us – Store background, mission, and sneaker culture identity.
- Shop / Collection – Main sneaker browsing and product display section.
- 95 History / Editorial – Historical, cultural, and design-related content.
- Product Page – Individual sneaker product information and enquiry section.
- Magazine – Editorial sneaker culture and featured article section.
- Size Guide / FAQs – Support information for customer purchasing decisions.
- Contact / Order Enquiry / Feedback – Customer communication and engagement section.

Subcategories

Shop / Collection

- Popular Picks
- Featured Pairs
- New Arrivals
- Limited Drops

Product Page

- Product Description
- Product Images
- Available Sizes
- Pricing Information
- Related Products
- Order Enquiry

Magazine

- Featured Articles
- Sneaker Culture
- Collaboration Features
- Editorial Stories
- Trending Colourways

95 History / Editorial

- Design Inspiration
- Cultural Influence
- Popular Colourways
- Featured Collaborations

Contact / Order Enquiry / Feedback

- Product Enquiry Form
- Contact Information
- Feedback Form

Additional Homepage Sections

- Featured Pairs
- New Arrivals
- Why Shop With Us
- Editorial Highlights
- Newsletter Subscription

This taxonomy separates product, editorial, promotional, and support content into logical sections while maintaining consistent navigation throughout the website.

2.3 Navigation Paths

A consistent global navigation menu will appear throughout the website, enabling users to move easily between sections. These navigation paths support various browsing behaviours based on user intent.

The Buyer Path

Home → Shop / Collection → Product Page → Order Enquiry

This path supports users primarily interested in browsing and purchasing sneakers.

The Discovery Path

Home → About Us → 95 History / Editorial → Magazine → Shop / Collection

This path supports users who first want to understand the brand identity and sneaker culture background before browsing products.

The Support Path

Home → Size Guide / FAQs → Contact / Feedback

This path supports users seeking practical assistance, support information, or direct communication with the business.

The Editorial Path

Home → Magazine → Featured Article → Shop / Collection

This path supports users interested in sneaker history, Air Max 95 culture, collaborations, and editorial storytelling before exploring featured products.

These navigation paths ensure all major website sections are logically connected and accessible through a structured navigation system.

2.4 Product Page

The Product Page is designed to provide users with detailed information about individual sneaker products available on the House of 95s website. This page focuses on product presentation, sneaker specifications, pricing information, sizing guidance, and customer order enquiries.

The Product Page includes:

- Product images.
- Product names and colourways.
- Pricing information.
- Available sizes.
- Product descriptions.

- Related sneaker recommendations.
- Order enquiry functionality.

The purpose of the Product Page is to improve customer decision-making by providing sufficient information about each sneaker pair while maintaining a visually engaging and modern e-commerce experience.

The page follows the same dark-themed visual identity used throughout the website, including olive and neon green accent colours, large product imagery, and responsive layouts.

2.5 Magazine Page

The Magazine Page functions as an editorial section dedicated to sneaker culture, Air Max 95 history, collaborations, fashion influence, and featured sneaker stories.

The Magazine Page includes:

- Featured sneaker articles.
- Sneaker culture editorials.
- Air Max 95 history features.
- Collaboration spotlights.
- Featured colourway breakdowns.
- Promotional editorial imagery.

The purpose of the Magazine Page is to strengthen the cultural identity of the House of 95s brand by combining visual storytelling with informational content inspired by modern sneaker editorials and streetwear publications.

The page encourages repeat visits and improves customer engagement by providing content beyond product promotion.

1. TECHNICAL BRIEF

House of 95s will be developed and deployed using the following technologies, software tools, and supporting resources.

HTML5

HTML5 will be used to define the semantic structure of the website. It will organize page layouts, headings, navigation menus, product sections, images, forms, and content areas using modern semantic elements.

CSS

CSS will define the website's visual appearance, including typography, spacing, colors, responsive layouts, product grids, buttons, image presentation, and the overall streetwear-inspired aesthetic of the House of 95s brand.

Bootstrap Framework

Bootstrap will simplify responsive web design and improve layout consistency. Its grid system, spacing utilities, buttons, and responsive components will support a mobile-friendly interface and reduce code complexity.

Minimal JavaScript Usage

Minimal JavaScript may be used for simple interface behaviors such as responsive navigation and basic interactivity if needed during development.

Visual Studio Code (VS Code)

Visual Studio Code will be the primary development environment for writing, editing, organizing, and managing the website's source code.

Git and GitHub

Git will manage version control, while GitHub will provide remote repository hosting and project backup.

GitHub Pages

GitHub Pages will host the website, enabling online deployment for testing, submission, and public viewing.

Graphic Design Software

Adobe Photoshop and Illustrator will be used for graphic content creation and visual asset development.

Adobe Photoshop will be used for:

- Editing sneaker images.
- Designing promotional banners.
- Creating homepage graphics.
- Producing web-ready visual content.

Adobe Illustrator will be used for:

- Logo creation.
- Vector graphic design.
- Icon development.
- Brand identity elements.

Cross-Browser Testing

Testing will be conducted across major web browsers including:

- Google Chrome.
- Mozilla Firefox.

- Microsoft Edge.
- Safari.

This ensures consistent rendering, functionality, and compatibility across all platforms.

Responsive Testing Tools

Responsive testing tools and browser device emulators will be used to assess layout stability, usability, and responsiveness across desktop, tablet, and mobile devices.

Suitability of the Technical Stack

The selected technical stack is suitable for House of 95s because the website requires strong visual presentation, responsive layouts, structured content, product displays, and customer interaction through enquiry forms and navigation.

HTML5 semantic elements enhance structure and accessibility, while CSS and Bootstrap enable visually consistent and responsive layouts suitable for a modern sneaker retail website.

These technologies support beginner-level web development and remain scalable for future expansion and additional website functionality.
